**Tiburon Construction
Kevin LeTroy
President**

Dear Kevin

I would like to pass on all the positive comments that we have had from our residents. The work you did on solving our water issues on the east side of our complex was outstanding and we have had no issues since. We found your work to be of a high standard and your pricing fair. I have not hesitated to recommend your skills to others and I know for a fact that you have done work for others that we sent your way and they were equally happy with your performance.

We have some project work coming up in the next month and I would be pleased if you could call me to discuss putting a proposal together. In the meantime it has been a pleasure working with someone that takes pride in what they do and are fair to their customer at the same time.

Yours truly
